1 Introduction

1.1 Policy statement

The purpose of this document is to set out the requirements for Shropshire Rural Alliance PCN and its individual constituent GP Practices to take the appropriate actions for safeguarding children, young people and adults at risk of harm or abuse, in line with extant legislation. This document will be updated as and when changes to legislation occur. Staff should refer to the legislative documents to always ensure relevance.

This comprehensive handbook is in lieu of a policy and will be updated as and when changes to legislation occur. Additionally, staff should also refer to any local Standard Operating Procedures (SOPs) relating to safeguarding at Shropshire Rural Alliance PCN and its individual constituent GP Practices.

Further guidance on safeguarding in Shropshire can be found at:

- Shropshire Safeguarding Children

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

Shropshire Safeguarding Community Partnership website

<http://www.shropshiresafeguardingcommunitypartnership.co.uk/>

This policy should be read in conjunction with the following CQC Mythbusters:

- [GP Mythbuster 25: Safeguarding adults at risk](#)
- [GP Mythbuster 33: Safeguarding children](#)
- [GP Mythbuster 80: Female genital mutilation \(FGM\)](#)

This handbook has been purposefully compiled as a joint safeguarding policy for adults and children. Feedback from the CQC, ICB, local safeguarding leads and organisations has been varied and some have stated that they require a separate policy whilst others prefer it to be collated as one.

For ease, throughout the document, in the heading for the section it will state whether this refers to a child or an adult and where there is no such indication, this means it is generic and refers to both. This will therefore ensure that it will be easier to segregate as required.

The following legislation supports safeguarding:

- [Care Act 2014](#)
- [Children Act 1989](#)
- [Children Act 2004](#)
- [Childcare Act 2006](#)
- [Children \(private arrangements for fostering\) regulations 2005](#)
- [Carers \(Recognition and Services\) Act 1995](#)
- [Domestic Abuse Act 2021](#)
- [Human Rights Act 1998](#)
- [Mental Capacity Act 2005](#)
- [Mental Capacity \(Amendment\) Act 2019](#)
- [Serious Crime Act 2015](#)

See [Chapter 8](#) for further guidance and links to training.

1.2 Status

The organisation aims to design and implement policies and procedures that meet the diverse needs of our service and workforce, ensuring that none are placed at a disadvantage over others, in accordance with the [Equality Act 2010](#). Consideration has been given to the impact this policy might have regarding the individual protected characteristics of those to whom it applies.

This handbook and any procedures contained within it are non-contractual and may be modified or withdrawn at any time. For the avoidance of doubt, it does not form part of your contract of employment. Furthermore, this document applies to all employees of the organisation and other individuals performing functions in relation to the organisation such as agency workers, locums and contractors.

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

2 Definition of terms

2.1 Adults with care and support needs (adults)

The [Care Act 2014](#) defines adults with care and support needs as those aged 18 and over who:

- Have needs for care and support (whether the local authority is meeting any of those needs) and;
- Are experiencing, or at risk of, abuse or neglect; and
- As a result of those care and support needs, are unable to protect themselves from either the risk of or the experience of abuse or neglect.

2.2 Advocacy

Advocates help to ensure that a person's rights are upheld and that their views, wishes and needs are heard, respected and acted on. The NHS webpage titled [Someone to speak up for you \(advocate\)](#) provides further detailed information.

2.3 Child

The [Children Act 1989](#) defines that a child is a person under the age of 18 years of age.

2.4 Child criminal exploitation

[Child criminal exploitation \(CCE\)](#) occurs when an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child or young person under the age of 18. The victim may have been criminally exploited even if the activity appears to be consensual.

CCE does not always involve physical contact; it can also occur through the use of technology. Further reading on this subject can be found in this government document [here](#).

2.5 Child in need

Under [Section 17 of the Children Act 1989](#), a child will be considered in need if:

- They are unlikely to achieve or maintain or to have the opportunity to achieve or maintain a reasonable standard of health or development without the provision of services from the local authority

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

Last Updated: 30-06-2026

Next Review date: 29.6.2026 or sooner, if required

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- Their health or development is likely to be significantly impaired, or further impaired, without the provision of services from the local authority
- They have a disability. Disability includes blindness, deafness or dumbness, mental disorders and permanent illnesses, injuries or congenital deformities

2.6 Child protection

Child protection sets out the clear actions needed to keep a child safe and well.

Where a child is at risk of harm, a conference with key agencies will share information, identify any risks to the child and outline the actions required to protect the child.

2.7 County lines

County lines is a term used to describe gangs, groups or drug networks that supply drugs from urban to suburban areas across the country, including market and coastal towns, using dedicated mobile phone lines or 'deal lines'.

It involves exploiting children and vulnerable adults to move drugs and money to and from the urban area and to store the drugs in local markets. It involves intimidation, violence and the use of weapons including knives, corrosives and firearms.

2.8 Discriminatory abuse

Discriminatory abuse occurs when values, beliefs or culture result in a misuse of power, causing denied opportunities. Motivating factors include age, gender, sexuality, disability, religion, class, culture, language, race or ethnic origin.

2.9 Emotional abuse

For a child, emotional abuse is the constant emotional mistreatment, the intention of which is to cause significant adverse effects on the emotional development of the child. Emotional abuse also includes overprotection and the restriction of a child learning or partaking in normal social interaction.

For all, emotional abuse is behaviour that has a detrimental effect on the individual's emotional wellbeing and may result in distress, e.g., bullying, verbal abuse, intimidation, isolation, over-protection or a restriction or withdrawal of an individual's human and/or civil rights.

2.10 Domestic violence or abuse

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

Domestic violence is also called domestic abuse and includes physical, emotional and sexual abuse in close relationships or between family members. Domestic violence can happen against anyone, and anyone can be an abuser.

Further reading on this subject including support can be found on the NHS webpage titled [Domestic violence and abuse](#). Local advice including referral pathways can be found at <https://www.shropsdas.org.uk>

2.11 Female genital mutilation

Female genital mutilation (FGM) comprises all procedures that involve partial or total removal of the external female genitalia or other injury to the female genital organs for non-medical reasons.

Further reading can be sought in the Clinical Guidance Document – FGM and in the WHO document titled [Female Genital Mutilation](#).

2.12 Financial abuse

Financial abuse is the use of an individual's funds, property, assets, income or other resources without their informed consent or authorisation. This is a crime. Financial abuse includes theft, fraud, exploitation, misuse of benefits or the misappropriation of property, inheritance or financial transactions.

2.13 Forced marriage

A forced marriage became illegal in June 2014 under the [Anti-social Behaviour Crime and Policing Act 2014](#) and it is a form of domestic abuse. It is primarily against women, although not exclusively, and most cases involve females aged between 13 and 30.

Forced marriage is a marriage conducted without the consent of one or both parties or where consent is obtained under duress and is markedly different from an arranged marriage in which the individuals retain free will and have the choice to accept the arrangement.

In forced marriage, perpetrators use physical, sexual, psychological or financial abuse to pressurise people to marry against their will.

Rubie's story can be heard in [this](#) YouTube video clip by the University of Derby.

2.14 Honour-based violence

This term is used to describe violent or threatening behaviour which is committed to protect or defend perceived cultural beliefs or the honour of the family. Honour-based violence is not acceptable behaviour and is illegal. Some of those who commit this

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

crime mistakenly believe someone has brought shame on their family or community that compromises their traditional beliefs or culture.

Further advice can be found in [this](#) YouTube video clip by the charity, Karma Nirvana.

2.15 Human rights

The [United Nations](#) defines rights as being inherent to all human beings, regardless of race, sex, nationality, ethnicity, language, religion or any other status.

2.16 Institutional abuse

Institutional abuse refers to a lack of respect in a health or care setting which involves routines that meet the needs of staff as opposed to the needs of the individual at risk and violate the individual's dignity and human rights.

2.17 Looked after children (LAC)

A looked after child may also be referred to as a 'child in care' and refers to a child placed in the care of their local authority for more than 24 hours. Looked after children may be living with foster parents, living in residential children's homes or other residential settings, e.g., a secure unit.

Further reading can be found in the NSPCC document titled [Looked after children](#).

[NICE Guidance 205](#) guidance in relation to safeguarding recommends that organisations, practitioners and carers work together to deliver high-quality care, stable placements and nurturing relationships for looked after children.

2.18 Local authority designated officer (LADO)

A LADO is a person who would be notified should there ever be an allegation that a member of staff behaved in an inappropriate manner towards a child.

The purpose and duties of the role are set out in the HM Government statutory guidance [Working Together to Safeguard Children](#). LADO guidance for Shropshire can be found at: [LADO / Managing Allegations \(procedures.org.uk\)](#)

Generic reading about this role can be found [here](#).

2.19 Making safeguarding personal (MSP)

This is a [Local Government Association initiative](#) that aims to develop an outcomes focus to safeguarding work and a range of responses to support people to improve or resolve their circumstances.

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager
Last Updated: 30-06-2026
Next Review date: 29.6.2026 or sooner, if required

Local guidance can be found here:

<https://www.shropshiresafeguardingcommunitypartnership.co.uk/useful-links/keeping-communities-safe-resources/making-safeguarding-personal/>

2.20 Modern slavery

This includes slavery, human trafficking, servitude and forced labour. Individuals are coerced, deceived and forced into a life of abusive and inhumane treatment.

2.21 Further information and guidance can be found in the Modern Slavery and Human Trafficking Guidance document. Neglect

For a child, neglect is the continued failure to ensure that a child's physical and psychological needs are met, resulting in significant impairment of the development of the child.

Examples of neglect include failing to provide adequate supervision, failing to respond to emotional needs, a lack of protection (from emotional or physical harm), failing to provide clothing, accommodation and food. [Drug and alcohol misuse](#), parental mental health problems and domestic abuse are often found as contributing factors to neglect.

More detailed information about Neglect can be found at [Neglect | West Midlands Safeguarding Children Group \(procedures.org.uk\)](#)

2.22 Person in a position of trust (PiPoT)

Any person who may be in a position of trust. In a healthcare setting, this is more likely to be a clinical member of the team, although this could be any staff member that provides support to adults.

The [Care Act 2014](#) refers. Note PiPoT and the Act only refer to adults.

2.23 Physical abuse

For adults and children, physical abuse can involve burning or scalding, drowning, suffocating, hitting, shaking, throwing, pushing, pinching, exposure to extreme temperatures (hot and cold), female genital mutilation, inappropriate use of medication, poisoning or other means of causing physical harm

For adults, additionally, it could also involve inappropriate restraint and deprivation of liberty.

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

2.24 Private fostering

The [Children Act 1989](#) advises that private fostering is a private arrangement (without the involvement of a local authority) to care for a child under 16, or under 18 if disabled, by a person other than the parent or close relative for an expected period of more than 28 days.

2.25 Safeguarding

In the CQC's document titled [Safeguarding People](#), it defines safeguarding as protecting people's health, wellbeing and human rights and enabling them to live free from harm, abuse and neglect. It is fundamental to high-quality health and social care.

2.26 Self-neglect

Self-neglect includes a lack of self-care, a lack of care of one's environment and the refusal of services that would reduce the risk of harm. Self-neglect may occur because the individual is unable to care for or manage themselves, they are unwilling to manage themselves, or both.

2.27 Sexual abuse

For a child, sexual abuse is the enticement or forcing of a child/young person to participate in sexual activities. This involves penetration or non-penetrative acts, physical contact or non-contact activities such as the encouraging of a child or young person to watch sexually inappropriate content.

For all, sexual abuse includes sexual exploitation, including the involvement of an adult in a sexual activity they have not consented to, the encouragement to watch any form of sexual activity, coercion into any form of sexual activity or the involvement of the adult in such scenarios when they lack the capacity to consent.

2.28 Sexual exploitation (children)

Child sexual exploitation (CSE) occurs when an individual takes sexual advantage of a child or young person (anyone under the age of 18) for his or her own benefit.

Power is developed over the child or young person through threats, bribes, violence and humiliation or by telling the child or young person that he or she is loved by the exploiter. This power is then used to [induce the child](#) or young person to take part in sexual activity.

2.29 Significant harm (children)

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

The Children Act 1989 [Section 31 \(3c\) \(9\)](#) defines 'harm' as the ill-treatment or impairment of the child. Whilst 'significant' harm is not defined under the Act, this will be decided by the local authorities working with family members to assess the child.

2.30 Young carers (children)

A young carer is a person who regularly provides emotional and/or practical support and assistance for a family member who is disabled, physically or mentally unwell or misuses substances.

3 Governance

Each individual Practice's clinical safeguarding lead and deputy are responsible for all aspects of the safeguarding procedures within their Practice. Furthermore, any changes to this handbook will be signed off by Shropshire Rural Alliance PCN's safeguarding leadership team.

Reference will also be made to latest guidance including:

- [CQC – Inspector's Handbook – Safeguarding \(2018\)](#).
- [RCGP – Safeguarding](#)
- [NICE – guidance and quality standards](#)
- [Gov.uk – Working together to safeguard children – Statutory framework](#)

The following table details the safeguarding leads within Knockin Medical Centre.

Lead	Name and role
Safeguarding lead	Dr Jonathan Davis
Deputy safeguarding lead	Dr Damien Thompson
PREVENT lead	Dr Jonathan Davis
Safeguarding administration lead	Rebecca Powell

4 Guidance

4.1 Overview

The safeguarding of children, young people and adults at risk is paramount for healthcare professionals and all team members working within Shropshire Rural Alliance PCN and its individual constituent GP Practices.

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager
Last Updated: 30-06-2026
Next Review date: 29.6.2026 or sooner, if required

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

It is essential that all staff are fully aware of their responsibilities to detect individuals at risk, provide the necessary support to those affected by safeguarding issues and ensure a high-quality service, including the appropriate sharing of information.

4.2 Organisation statement

Shropshire Rural Alliance PCN and its individual constituent GP Practices recognise that all children, young people and adults at risk have a right to protection from abuse and neglect and the organisation accepts its responsibility to safeguard the welfare of such persons with whom staff may come into contact.

We will respond quickly and appropriately where information requests are made, abuse is suspected or allegations are made in relation to children, young people or adults at risk. Furthermore, we will give children, young people, their parents and adults at risk the chance to raise concerns over their own care or the care of others and have in place a system for managing, escalating and reviewing concerns.

The organisation will ensure that all staff are given the appropriate safeguarding training, proportionate to their role, and that they attend annual refresher training. New members of staff will receive safeguarding training as part of their induction programme.

Safeguarding responsibilities will be clearly defined in job descriptions and there are nominated leads for safeguarding adults and children.

4.3 Principles of safeguarding

It is possible that the GP may be the individual who identifies a child, young person or adult as being at risk.

It is therefore essential that clinicians act appropriately and in a timely manner to reduce the risk of long-term abuse, in accordance with the [six principles of safeguarding](#):

The six principles of safeguarding		
1	Empowerment	People being supported and encouraged to make their own decisions and informed consent
2	Prevention	It is better to take action before harm occurs
3	Proportionality	The least intrusive response appropriate to the risk presented
4	Protection	Support and representation for those in greatest need
5	Partnership	Local solutions through services working collaboratively

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

6	Accountability	Accountability and transparency in safeguarding practice
---	----------------	--

The organisation supports the safeguarding principles by ensuring that:

- There is a safe recruitment procedure in place, including the effective use of the Disclosure Barring Service (DBS)
- Clear lines of accountability exist within the organisation for safeguarding
- All staff are aware of the safe whistleblowing process
- All staff understand the requirement to work in an open and transparent way
- All patients are treated with dignity and respect regardless of culture, disability, gender, age, language, racial origin, religion or sexuality
- All staff adhere to the guidance in this handbook and that given in the referenced texts
- All staff effectively interact with the relevant agencies, sharing information appropriately
- All staff who work with children, young people and adults at risk are responsible for their own actions and behaviour and should avoid conduct that may lead another responsible person to question their motivation and/or intentions

4.4 Mental capacity

The [Mental Capacity Act \(MCA\) 2005](#) offers a framework that details the rights of individuals should their capacity be questioned. The principles of the MCA must be adhered to and are applicable to safeguarding.

Should an individual at risk opt to remain in an abusive situation, it is essential that they choose to do so without duress or undue influence and are fully aware of the risks they may encounter. Should it transpire that the individual has been threatened or coerced, safeguarding interventions must override their decision to ensure that the safety of the individual is protected.

NICE has published [guidance](#) to assess mental capacity together with [practical resources](#) to enable organisations to put the guidelines into practice. The pathway covers a wide breadth of scenarios for practitioners to utilise including executive decisions in cases such as traumatic brain injury when capacity is more difficult to establish.

The five statutory principles of this Act are as detailed within the Mental Capacity Act Policy.

4.5 Liberty Protection Standards

In addition to the MCA 2005 and the later Mental Capacity (Amendment) Act 2019, the organisation will determine if a person is deemed to have been deprived of their liberty as detailed in the [Liberty Protection Standards factsheets](#) and the European Court of Human Rights (ECHR) [Article 5](#).

Where it is suspected that the deprivation is unlawful, the organisation will report this to the local authority within 48 hours.

A local authority has the legal power to sanction and issue a [Deprivation of Liberty Safeguard Order](#) should it be deemed necessary to restrict the freedom of an individual if it is in their best interest. This Safeguard Order would support patients who lack capacity to consent to their care arrangements, i.e., those suffering from a disorder or disability of the mind, for whom care and treatment can only be provided in circumstances that amount to a deprivation of liberty.

Further reading can be sought from the Mental Capacity Act Policy.

4.6 Emotional Wellbeing Mental Health Services (EWMHS)

Children and vulnerable adults (up to the age of 25 years with Special Educational Needs) will be offered referral to EWMHS if they need support with any of the following wellbeing or mental health difficulties:

- Anxiety
- Depression
- Stress
- Eating disorders
- Suicide
- Attention deficit hyperactivity disorder (ADHD)
- Autism spectrum
- Emotional and behavioural difficulties

The local EWMHS is provided by BeeU. Health professionals can contact the Access team by phoning 0808 196 4501, option 1. Further information can be found at [Bee U – Children's mental health and wellbeing | Shropshire Council](#)

There is also a local CAMHS Learning Disability Service.

4.7 CONTEST and PREVENT

In 2011, the government introduced the [PREVENT](#) strategy as part of the counter-terrorism strategy, [CONTEST](#). The purpose of PREVENT is to stop individuals becoming involved in terrorism. This includes violent and non-violent extremism which can create an atmosphere conducive to terrorism.

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

CHANNEL is a support programme that helps those individuals who are at risk of being drawn into terrorism. Further guidance can be found at the Gov.uk webpage titled [Channel and Prevent Multi-Agency Panel \(PMAP\) guidance](#).

It is possible that staff will meet and treat people who are at risk of being drawn into terrorism, including supporting violent or non-violent extremism or being susceptible to radicalisation. If a member of staff suspects that an individual is at risk, they should speak to the organisation's PREVENT lead or clinical safeguarding lead or, in his/her absence, to the deputy clinical safeguarding lead.

It may be necessary to contact the regional PREVENT coordinator (RPC) for further guidance. [Prevent | West Mercia Police](#)

5 Adults – indicators of abuse

The following are indicators of abuse in adults at risk:

5.1 Physical abuse

Possible indicators for physical abuse may include:

- Unexplained injuries or injuries inconsistent with the person's lifestyle
- Inconsistent history or a changing history
- Bruising, burns, marks, regular injuries
- Unexplained falls
- Changes in behaviour or low self-esteem
- A delay or failure in seeking medical support
- Signs of malnutrition

5.2 Emotional abuse

Possible indicators of emotional abuse:

- Low self-esteem
- Uncooperative and/or aggressive behaviour
- Resentment, anger, distress
- Insomnia
- False claims to attract unnecessary treatment (claims may also be from controlling family member)
- Behavioural changes when in the presence of a particular person

5.3 Sexual abuse

Possible indicators of sexual abuse include:

- Bruising to thighs, buttocks, upper arms and marks on the neck
- Torn, soiled or bloodied undergarments

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- Genital pain, itching or bleeding
- Difficulty in walking or sitting
- Presence of foreign bodies
- Sexually transmitted diseases
- Pregnancy in women who are unable to consent to sexual intercourse
- Fear of help with personal care
- Reluctance to be alone with a particular person

5.4 Neglect

Possible indicators of neglect:

- Dirty, unhygienic living space
- Poor personal hygiene
- Pressure sores, ulcers
- Insufficient or inadequate clothing
- Untreated injuries
- Malnutrition
- Failure to engage with social groups
- Failure to bring to booked appointments

Types of Neglect can be found here:

<https://westmidlands.procedures.org.uk/pkphl/regional-safeguarding-guidance/neglect/#s647>

Shropshire Neglect screening tool and resources can be found here:

<https://westmidlands.procedures.org.uk/local-content/xkjN/neglect-tools-and-pathways/?b=Shropshire>

5.5 Self-neglect

Possible indicators of self-neglect in adults with care and support needs:

- Unkempt appearance
- Unable or unwilling to take medication
- Extremely poor personal hygiene
- Lack of essentials (food and/or clothing)
- [Hoarding](#)
- Living in unacceptable conditions
- Malnutrition and dehydration

More information can be found at:

<http://www.shropshiresafeguardingcommunitypartnership.co.uk/partnership-priority-areas/adult-safeguarding-and-protection-practice/self-neglect/>

5.6 Discriminatory abuse

Possible indicators of discriminatory abuse:

- Withdrawn appearance
- Expressions of anger, frustration, anxiety or fear
- Poor support that does not meet the needs of the individual

5.7 Institutional abuse

Possible indicators of institutional abuse:

- Poor record-keeping and standards of care
- Lack of flexibility, procedures, management and support
- Inadequate staffing levels, recreational and educational activities
- Lack of choice
- Dehydration, hunger, lack of personal clothing and possessions
- Unnecessary exposure during bathing or when using the lavatory
- Lack of confidentiality
- Lack of visitors

5.8 Financial abuse

Possible indicators of financial abuse:

- Unexplained withdrawals from accounts
- Lack of available funds
- Missing personal possessions
- Rent arrears and/or eviction notice
- Unnecessary maintenance
- Lack of receipts for financial transactions
- Persons showing an unusual interest in an individual's assets
- Lack of food etc.

5.9 Modern slavery

Possible indicators of modern slavery:

- Isolation
- Malnutrition
- Unkempt appearance
- Always wearing the same clothes
- Lack of personal possessions
- Unable to prove identity, i.e., lack of documentation

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

- Signs of physical or emotional abuse

More information can be found at: [Modern slavery: how to identify and support victims - GOV.UK \(www.gov.uk\)](#)

5.10 Forced marriage (adults or children)

This crime remains largely under-reported as many victims are too frightened to come forward for fear of the repercussions on their families. There are many indicators of forced marriage and these can be sought [here](#).

A dedicated Governmental Forced Marriage Unit (FMU) is available and can be emailed at fmf@fcdo.gov.uk.

The unit can be contacted via:

- 020 7008 0151 (Monday to Friday between 0900 – 1700 only)
- 020 7008 5000 (out of hours)
- +44 (0) 20 7008 0151 (from overseas)

For further information on forced marriage see [here](#) including how to raise Form FL401A: [Application for a Forced Marriage Protection Order](#).

5.11 Honour based violence

Possible indicators of honour-based violence may include:

- Lengthy or repeated absence from school, a decline in academic performance
- Depression, anxiety, self-harm, substance misuse, suicidal thoughts
- Poor attendance at work or a drop in performance
- Non-attendance at events outside of the normal working environment
- Restrictions on friends
- Disapproval of adopting a different style (or 'western') type of clothing and/or the wearing of make-up

Honour-based violence encompasses a range of offences including murder, rape, assault, abduction and domestic abuse. Both men and women are at risk.

5.12 County lines

Possible indicators of county lines involvement include:

- Becoming more secretive, aggressive or violent
- Meeting with unfamiliar people
- Persistently going missing from their home or local area
- Leaving home without an explanation or staying out unusually late

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- Loss of interest in work and a decline in performance
- Suspicion of physical assault or unexplained injuries
- Using language relating to drug dealing, violence or gangs
- Carrying a weapon
- Association with a gang
- Becoming isolated from peers and social networks
- Having a friendship or relationship with someone who appears controlling
- Using drugs, especially if their drug use has increased
- Unexplained acquisition of money, drugs or mobile phones

6 Children – indicators of abuse

The following are common presentations in which abuse may be suspected in a child or young person:

6.1 Physical abuse

Possible indicators of physical abuse:

- Bruises, burns, scalds, bite marks, fractures and other injuries
- Admission by the child or young person
- Unwillingness to change into PE kit at school
- Physical signs and symptoms that could be attributed to any category of abuse and/or are inconsistent with the history given
- An inconsistent history or one that changes over a period of time
- A delay in seeking medical support
- Extreme or worrying behaviour
- Self-harm
- An accumulation of minor incidents, including repeated attendance at A&E
- Repeated attendance of a baby under 12 months of age
- Bruising or injury to a child under 24 months of age

6.2 Emotional abuse

Possible indicators of emotional abuse:

- Overly affectionate towards strangers
- Anxious or showing a lack of confidence or appearing clingy
- Inappropriate language or subjects for their age
- Extreme outbursts or very strong emotions
- Showing isolation from parents or carers
- Lack of social skills or have very few friends
- Bed-wetting
- Poor attendance at school
- Insomnia

KNOCKIN MEDICAL CENTRE

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

6.3 Sexual abuse

Possible indicators of sexual abuse:

- Avoidance of spending time alone with certain individuals
- Fear or unwillingness to socialise with certain persons
- Use of sexual language or knowing information that would not usually be expected
- Vaginal or anal soreness and/or discharge
- Sexually transmitted infections
- Young girls or girls with learning difficulties or a disability requesting contraception, especially emergency contraception
- Girls under 16 presenting with pregnancy and/or sexually transmitted infections, especially those with learning difficulties, long-term illness or complex needs or disability
- Child exploitation as a victim of sexual abuse*
- Having unexplained physical injuries
- Association with groups of older people or antisocial groups

*It should be noted that [The Children's Society](#) dictates that the term 'promiscuous' is not appropriate in any context when discussing children and young people, and particularly if it occurs within an abusive or exploitative context.

This term implies that consensual sexual activity has taken place and is a judgemental term based on assumptions and includes a significant gender bias as it is rarely applied to boys and men.

6.4 Neglect

Possible indicators of neglect:

- Poor appearance and hygiene
- Inadequate clothing
- Hunger or lack of money for school meals
- Untreated nappy rash in infants
- Untreated injuries, conditions and dental cases
- Recurring illness or infection
- Tiredness
- Evidence of skin sores, rashes, flea bites, scabies or ringworm
- Left alone at home for prolonged periods
- Living in unsuitable environments, e.g., no heating or hot water
- Caring for others in the home, e.g., siblings
- Failure to bring to appointments (WNB)

6.5 Exploitation

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

Last Updated: 30-06-2026

Next Review date: 29.6.2026 or sooner, if required

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

Child exploitation is when someone uses a child for financial gain, sexual gratification, labour or personal advantage.

Using cruel and violent treatment to force a child to take part in criminal or sexual activities often leads to physical and emotional harm to the child, to the detriment of their physical and mental health, education, and moral or social development. (From Safeguarding Network website.)

'The exploitation of children can take a number of different forms and perpetrators may subject children and young people to multiple forms of abuse at the same time, such as criminal exploitation (including county lines) and sexual exploitation.' (The Home Office 2019, Updated 2022).

6.6 County lines

Possible indicators of county lines involvement include:

- Persistently going missing from school or home and/or being found out of area
- Unexplained acquisition of money, clothes or mobile phones
- Excessive receipt of texts/phone calls
- Relationships with controlling/older individuals or groups
- Leaving home/care without explanation
- Suspicion of physical assault/unexplained injuries
- Parental concerns
- Carrying weapons
- Significant decline in school results/performance
- Gang association or isolation from peers or social networks
- Self-harm or significant changes in emotional wellbeing

This is a good explanation from NSPCC: [Criminal exploitation and gangs | NSPCC](#)

6.7 Unborn child

Pregnancy can create circumstances and influences for both parents which need to be understood by all professionals who come into contact with these families.

These include where:

- Previous children in the family have been removed because they have suffered harm
- Concerns exist regarding the mother's ability to protect
- There are concerns regarding domestic violence and abuse
- A parent or other adult in the household, or regular visitor, has been identified as posing a risk to children
- A child in the household is the subject of a [Child Protection Plan](#)

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- A sibling has previously been removed from the household either temporarily or by court order
- Either parent is a [Looked After Child](#) or are known to children's social care
- Any other concerns exist that the baby may be at risk of significant harm including a parent previously suspected of fabricating or inducing illness in a child or harming a child
- A child aged under 16 and found to be pregnant
- Either or both parents have mental health problems
- Either or both parents have a learning disability
- Either or both parents are under 18 years
- Either or both parents abuse substances, alcohol or drugs
- If the pregnancy is denied or concealed

Greater Manchester Safeguarding Board has developed a [toolkit](#) for assessing the safety of the unborn child and this can be found within their [procedures manual](#).

6.8 Female genital mutilation (FGM)

FGM has been illegal in the UK since 1985. The [Serious Crime Act 2015](#) strengthened legislation by adding extra requirements for healthcare professionals to report FGM.

The Act details that:

- It grants lifelong anonymity to alleged FGM victims
- It is an offence for parents to fail to protect their child from FGM
- FGM Protection Orders can be introduced to prevent potential victims from travelling abroad
- It is a mandatory reporting duty for nurses, midwives, doctors, social workers and teachers to report to the police whenever they observe physical signs of FGM on a person under the age of 18 or where a girl tells them it has been carried out on her
- It is an offence for FGM to be committed abroad against UK residents

In addition to the requirements of the Serious Crime Act, it is now mandatory for all GP practices and Acute and Mental Health Trusts to [submit data to NHS Digital](#). Under 18s who may be at risk of FGM should be referred using standard existing safeguarding procedures, usually to children's services.

The following [SNOMED CT](#) codes should be used for FGM:

Heading	Code
---------	------

KNOCKIN MEDICAL CENTRE

Further detailed information can be sought in the Clinical Guidance Document – FGM and [GP Mythbuster 80: Female genital mutilation \(FGM\)](#).

7 Raising a concern – action to be taken by staff

7.1 General

Should any member of staff have cause for concern, or where a person has disclosed abuse, they are to report these to the following and in this order:

1. Dr Jonathan Davis (Organisation safeguarding lead)
2. In his/her absence, Dr Damien Thompson (Organisation deputy safeguarding lead) should be appraised of the concern
3. In the absence of one or both leads, and where safeguarding leads are uncertain as to the action required, the senior clinician present must raise the matter with the local safeguarding team. In emergency cases, a decision will be made about contacting the police or social services
4. In all instances of safeguarding concerns, Dr Jonathan Davis, GP Partner and Safeguarding Lead will be updated to ensure that they can effectively respond to any external interested parties

7.2 Adult at risk – action to be taken

When it is suspected that an adult at risk is suffering from abuse, staff are to:

- Remain focused
- Act in a non-judgemental manner
- Offer support, empathy and remain engaged with the individual
- Reassure the individual throughout the consultation
- Ensure that all information is recorded accurately
- Secure any evidence where possible
- Ensure that they do not give the adult at risk any promises or press them for further information

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

7.3 Managing concerns about a person in a position of trust

The [Care Act 2014](#) requires local Safeguarding Adult Boards to establish a framework and process to respond to allegations against anyone who works, either paid or unpaid, with adults who have care and support needs.

Any service where there is Person(s) in a Position of Trust (PiPoT) are to have a procedure to manage any concern that has been raised against them.

Incidents where the Local Authority Safeguarding Adults Team need to be apprised should there be an allegation are when:

- Adults are harmed where they have care and support needs, or
- A criminal act has been committed towards an adult with care and support needs, or
- There is behaviour in a way that raises concern about the suitability to work with an adult with care and support needs

Where any allegation is made, the Safeguarding Lead will complete a PiPoT referral to the Local Authority Safeguarding Adults Team. Further information can be found at <https://westmidlands.procedures.org.uk/local-content/yqjN/localised-content-lado-managing-allegations/?b=Shropshire>

Should it be preferable to speak to the Local Authority Designated Officer (LADO), ring 03456 789021 and advise the call handler that the organisation would like to raise a safeguarding concern and that this is about a person who is in a position of trust.

Any allegation against a PiPoT will be taken seriously and dealt with fairly and in a way that protects both the adult and the PiPoT. Therefore, when an allegation is received by the Local Area Safeguarding team, the Safeguarding Adults Manager will contact the Safeguarding Lead (or referrer if different) for an initial discussion.

Depending on the circumstances, the Safeguarding Adults Manager may discuss the content and further considerations with key agencies including:

- Police
- Adult safeguarding leads from other health agencies
- LADO (Local Authority Designated Officer)

Initial discussions may lead to a meeting involving all appropriate agencies where the focus of the meeting will be to determine what actions are required, who will undertake actions and by when. It will also be agreed who will be responsible for contacting and updating the PiPoT and the meeting will decide what information can be shared at this point.

A possible outcome of an allegation of inappropriate behaviour may be to consider actions under the Disciplinary Policy and Procedure and a referral made to an

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

appropriate professional body. Furthermore, a recommendation may be made to undertake further training or duties or responsibilities changed.

Timescales for actions will be agreed to ensure the process is concluded in a timely way.

Should any decision be made to suspend the PiPoT, then this is to be viewed as a neutral act to protect and support and is not to be viewed as any decision of guilt.

7.4 Child at risk – action to be taken

The [Children Act 2004](#), as an expansion of the earlier 1989 Children Act, reinforces that all people and organisations working with children have a duty to help safeguard children.

When it is suspected that a child or young person is suffering from abuse, staff should:

- Remain focused, take time, slow down
- Reassure the child, explaining to them that they have done the right thing and they are not to blame
- Offer support, empathy and remain engaged with the child/young person
- Explain what needs to be done next
- Ensure that all information is recorded accurately, paying particular attention to dates and times of events
- Do not ask leading questions or promise confidentiality

Further guidance and resources for recognising and responding to abuse in children can be found [here](#).

7.5 Parental responsibility

It should be noted that each parent has parental responsibility and, as such, anyone with parental responsibility for a child has a right to seek access to that child's medical records. Parents do not lose parental responsibility if they divorce, however, parental access can be restricted by the court.

Parental responsibility is defined in the [Children Act 1989](#) as “all the rights, duties, powers, responsibilities and authority which by law a parent of a child has in relation to [Childcare Act 2006](#)” and is as follows:

- Birth mothers automatically have parental responsibility, as do married fathers. However, in both cases, this can be removed by the court
- When the father is not married to the child's mother, his parental responsibility will depend on when the child was born and those who are named upon on the birth certificate

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

These named fathers automatically have parental responsibility if the child was born on or after:

- 1 December 2003 in England and Wales
 - 4 May 2006 in Scotland
 - 15 April 2002 in Northern Ireland
- Unmarried fathers who are not named on the birth certificate do not have automatic parental responsibility. However, they can acquire parental responsibility if they obtain a Parental Responsibility Agreement from the child's mother or a Parental Responsibility Order from the court
- Step parents and civil partners can acquire parental responsibility in the same way as unmarried fathers
- If a child is adopted, the birth parents will lose parental responsibility for their child and, with any child in care, the representatives of the local authority will have parental responsibility for that child

The MDU provides further guidance on both parental responsibility and disputes between parents [here](#). Further details on accessing medical records can be found within the Access to Medical Records Policy.

7.6 Risks to the child following parents separating

Occasionally, there may be a request from a single parent suggesting that the other parent must not be allowed to access the child's medical records and/or must not be involved in the medical care of that child(ren)

Should this organisation receive any such requests from estranged parents, then the advice from MDU titled [Children whose parents are separated](#) offers sound guidance. This can be further endorsed by contacting the Practices / GPs defence union to obtain its thoughts on this matter.

In all situations, this organisation will do what is in the best interest of the child and this may involve discussing any concerns with the safeguarding lead should any staff member believe that the parents do not have best interests of the child(ren) in mind.

7.7 Child who contacts the organisation to make an appointment

Should a child contact the organisation and ask to make an appointment, the staff member receiving the call is to consider both the age and competence of that child.

Often it may be appropriate for the child to do so, but should there be any concerns, such as:

- The child seems to be too young, or

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

Last Updated: 30-06-2026

Next Review date: 29.6.2026 or sooner, if required

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- What they are asking for is inappropriate, or
- The staff member feels that this may be a safeguarding concern

then this is to be discussed with the Safeguarding Lead.

Further information on competence can be sought in the Safeguarding Policy and also the CQC's [GP Mythbuster 8: Gillick competency and Fraser guidelines](#).

7.8 Raising an alert

When it is necessary to raise an alert, a risk assessment should be undertaken to prevent further risk of immediate harm to the child, young person or adult at risk. The initial assessment should consider:

- Whether the individual is still at risk if they return to the place where the abuse is alleged or suspected to have taken place
- The extent of harm that is likely to occur if the child, young person or adult at risk encounters the person who is alleged to have caused harm
- Whether the alleged person still has access to the child, young person or adult at risk

Once raised, the alert will be managed according to the current Shropshire, Telford and Wrekin Integrated Care System safeguarding process to ensure the needs of the individual are met and that the risk of further harm is significantly reduced.

The process will detail the actions to be taken to safeguard the individual at risk, ensuring that those involved are aware of the options available and how they can support the individual throughout the process.

7.9 Movement of at-risk patients

Within Shropshire Rural Alliance PCN and its individual constituent GP Practices, each Practice will be responsible for ensuring that a register of all at-risk children, young people and adults is maintained, allowing close oversight of this vulnerable group should there be any request to leave the practice.

Should any patient who has a safeguarding flag request to change practices, there is a risk that, as notes may take time to be transferred, there can be a delay in summarising. Furthermore, it has been known for families to deliberately move practices frequently and consult different healthcare providers to avoid detection.

To minimise any risk, it is imperative that safeguarding concerns are communicated promptly. At this organisation, the following process overleaf it to be taken:

Further information can be sought in the Removal of Patients Policy.

7.10 Other matters to be considered

Staff must ensure that they stay calm and liaise with the clinical safeguarding lead or nominated deputy to make certain the child, young person or adult at risk is offered the most appropriate level of care. Concerns must be discussed immediately and an action plan devised.

Staff must understand that there are circumstances where a safeguarding alert may be made without consent, e.g., circumstances involving other at-risk groups or where a crime may have been committed. Disclosing this information is referred to as a public interest disclosure to share information.

7.11 Record-keeping

It is essential that all concerns, discussions and decisions are recorded in the individual's healthcare record and that the appropriate SNOMED codes for abuse are used. Any documentation relating to safeguarding should be factual, contemporaneous and should be immediately obvious on a patient's record to any health professional involved in the patient's direct care. There should be no more than 48 hours delay in entering safeguarding information to records.

All correspondence relating to any safeguarding matters for a child, young person or adult at risk is to be scanned into the individual's electronic healthcare record. Staff are to ensure that, prior to sharing information, any sensitive third-party information is redacted if necessary and the entry marked as "safeguarding relevant" to ensure information is restricted to a "need-to-know" basis.

Child protection reports are also to be scanned into the healthcare record and the appropriate coding used. In such circumstances, the SNOMED code used to illustrate that the child is on a child protection plan should be entered into the notes of all individuals living at the same address.

The use of formal coding templates within Ardens will help to ensure consistent coding and the administration safeguarding lead will be able to advise staff accordingly if they have any queries or concerns.

The RCGP has created a guidance document "[Processing and Storing Safeguarding Information in Primary Care](#)". The following three tables (Adult, Children Other) show codes which should be used for coding safeguarding information in the patient's electronic record.

7.12 Sharing of information

The sharing of information is essential to establish early intervention and the protection of children, young people and adults at risk. Clinicians must understand the need to share information, when it appropriate to share and how they share the information.

Where possible, consent to share should be obtained. However, the safety of the individual is paramount and, where concern exists or individuals are deemed to be at risk from significant harm, then this is to be considered as the determining factor and information should be shared. Where doubt exists, the organisation's safeguarding lead or nominated deputy should be approached for advice.

There are [eight principles](#) to sharing information. With these principles in mind, staff are advised to follow these:

1. The [Data Protection Act 2018](#), Chapter 2, the UK General Data Protection Regulation (UK GDPR) and human rights law are not barriers to justified information sharing but provide a framework to ensure that personal information about living individuals is shared appropriately.
2. Be open and honest with the individual (and/or their family where appropriate) from the outset about why, what, how and with whom information will, or could be, shared and seek their agreement, unless it is unsafe or inappropriate to do so.
3. Seek advice from other practitioners or the information governance lead if there is any doubt about sharing the information concerned, without disclosing the identity of the individual where possible.
4. Whenever possible, share information with consent and, if possible, respect the wishes of those who do not consent to share confidential information. Under the Data Protection Act 2018, you may share information without consent if, in your judgement, there is a lawful basis to do so, such as where safety may be at risk. You will need to base your judgement on the facts of the case. When you are sharing or requesting personal information from someone, be certain of the basis upon which you are doing so. Where you do not have consent, be mindful that an individual might not expect information to be shared.
5. Consider safety and wellbeing: base your information-sharing decisions on considerations of the safety and wellbeing of the individual and others who may be affected by their actions.
6. Necessary, proportionate, relevant, adequate, accurate, timely and secure: ensure that the information you share is necessary for the purpose for which you are sharing it, is shared only with those individuals who need to have it, is accurate and up to date, is shared in a timely fashion and is shared securely (see principles).

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

7. Keep a record of your decision and the reasons for it – whether it is to share information or not. If you decide to share, then record what you have shared, with whom and for what purpose.

Further information in relation to sharing information can be sought from the following:

- UK General Data Protection Regulation (UK GDPR) Policy
- Consent Policy

7.13 Ongoing monitoring of vulnerable patients

Each individual GP Practice within Shropshire Rural Alliance PCN will be responsible for ensuring that a register of all at-risk children, young people and adults is maintained, allowing close oversight of this vulnerable group. The following monthly checks will be carried out:

- The register will be cross-referenced with family members and significant others and relationships recorded and highlighted, where indicated
- The register will be checked monthly to ensure the status of all vulnerable patients is up to date and those responsible for direct care will be notified of any changes, e.g., child no longer in need or child now subject to a plan. The correct SNOMED codes will be entered and entries marked as safeguarding relevant
- The register will be checked for occasions where a vulnerable patient has missed an appointment or has not attended secondary care following a referral. See Chapter 11 for full guidance on how this is managed
- The register will be checked for movement of vulnerable patients, both into and out of the organisation
- Newly registered vulnerable patients will be flagged to the registered clinician and records will be summarised as a priority to ensure accuracy. If not already offered, the patient/carer/guardian will be offered a face-to-face new patient check appointment with their GP
- Where patients have moved outside of the practice, records will be checked against the national spine to confirm registration elsewhere and paper records will be returned via PCSE as a priority. Where there are concerns that there may be a gap in registration, the Practice's safeguarding lead will be advised and will consider if further action is required.

See Section 7.6 for further details.

7.14 External support for victims

There are several organisations that provide specific support. Some of the main national charities include:

- [Action for Children](#)
- [Citizens Advice](#)
- [Crimestoppers](#)
- [Justice and Care](#)
- [Mind](#)
- [Refuge](#)
- [The Salvation Army](#)
- [NSPCC](#)
- [Rape Crisis](#)
- [Shropshire Domestic Abuse Service](#)
- [The Survivors Trust](#)
- [Women's Aid](#)

8 Training

8.1 Training overview

This organisation is committed to having arrangements in place to ensure that all staff are trained effectively for both safeguarding adults and children, and to the level required commensurate with their role.

This is in conjunction with the guidance given by the CQC in the following:

- [GP Mythbuster 25: Safeguarding adults at risk](#)
- [GP Mythbuster 33: Safeguarding children](#)
- [GP Mythbuster 80: Female genital mutilation \(FGM\)](#)

The organisation will ensure that staff are specifically trained according to intercollegiate guidance as follows (links to training can be found at Section 9.3). Intercollegiate guidance document can be downloaded [here](#).

Training level	Staff requirements
1	Core training All staff including non-clinical managers and staff working in healthcare services, e.g., general back office administrative staff and volunteers
2	Minimum level required for non-clinical and clinical staff who, within their role, have contact with children and young people, parents/carers or adults who may pose a risk to children, e.g., safeguarding administrators, receptionists, team leads and practice managers

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

3	All clinical staff working with children, young people, their parents or carers and any adult who could pose a risk to children who could potentially contribute to the assessing of, planning, intervening in and evaluating the needs of a child or young person and parenting capacity Registered healthcare staff working with adults who are engaging in assessing, planning, intervening and evaluating the needs of adults where there are safeguarding concerns (as appropriate to role) Note: In addition to GPs, this level of training is also for ANP's practice nurses, paramedics and other healthcare professionals Practice Safeguarding Leads need Level 3 training plus additional training as per RCGP Guidance. Practice Safeguarding Leads are not Level 4 Named Professionals.
4	Named professionals for safeguarding, working with commissioners
5	Designated professionals, working with the government.

8.2 Minimum training requirements

As well as the mandatory training above, additional minimum training times have been provided by RCGP and can be found in the document titled [RCGP supplementary guide to safeguarding training requirements for all primary care staff](#).

This details all levels and all practice staff.

8.3 Further training

Safeguarding Children (Levels 1-3) and Adults (1 - 3) training and Domestic violence and abuse awareness training are all available in [Teamnet](#) on eLFH.

Further reading from intercollegiate guidance includes:

- [Adult Safeguarding: Roles and Competencies for Health Care Staff](#)
- [Safeguarding Children and Young People: Roles and Competencies for Healthcare Staff](#)

Further NHS training is available and includes:

- [Domestic violence](#)
- [Child sexual abuse](#)
- [Child abuse](#)
- [Child protection](#)
- [Adult safeguarding](#)

9 Other safeguarding matters

9.1 Safer recruitment

Shropshire Rural Alliance PCN and its individual constituent GP Practices will ensure that the appropriate pre-employment checks are carried out prior to any individual commencing work at the organisation. This organisation will mirror the six NHS Employment Check Standards which are:

1. [Identity checks](#)
2. [Employment history and reference checks](#)
3. [Work health assessments](#)
4. [Professional registration and qualification checks](#)
5. [Right to work checks](#)
6. [Criminal record checks](#)

All checks will be conducted by the relevant Practice Manager / Office Manager before staff are recruited into positions within Shrewsbury PCN or any of its individual constituent GP Practices. Applicants will be required to undergo either an enhanced or standard DBS check depending on the position applied for. For ARRS staff not employed by the network or one of the individual constituent GP Practices, the lead PCN Manager will ensure that the employing authority has undertaken the relevant DBS check.

It is acknowledged that the relevant management team has a legal duty to refer information to the DBS if any employee has harmed, or is deemed to be a risk of harm, to children, young people or adults at risk.

Additional information is contained in the DBS Policy and the Recruitment Policy and Procedure.

9.2 Whistleblowing

All staff can raise any concerns they have about the conduct of others within the organisation or how the organisation is run in confidence.

For further information, refer to the Whistleblowing Policy and Procedure.

9.3 Allegations against a member of staff

All alleged allegations will be investigated thoroughly. The organisation safeguarding lead is to be informed and he/she will consult with the local authority's safeguarding team (child or adult) and, if necessary, the local police.

The safeguarding lead will advise the individual concerned that an allegation has been made against them but will not disclose any information at this stage.

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

Such is the seriousness of any alleged allegation, the individual concerned must be managed appropriately in accordance with the organisation's HR procedures.

Allegations do not necessarily merit immediate suspension. This will depend on the person's role within the organisation and the nature of the allegation.

Allegations are distressing for all concerned, the individual, the organisation's staff and the alleged person. It is imperative that appropriate advice is sought from the outset. The local authority's designated officer (LADO) for managing allegations will be able to provide guidance to ensure that the [correct process](#) is followed.

Advice may also be sought from the MDU & MDDUS should it be a member of staff covered under the 'Groupcare Scheme'. MDU & MDDUS contact details are:

MDU:

Telephone: 0800 716 646

Email: advisory@themdu.com

MDDUS:

Telephone: 0333 043 4444

Email: info@mddus.com

These contact details are medical professionals only covered by the scheme.

9.4 Chaperoning

It may be appropriate to offer a chaperone for a variety of reasons. Clinicians should consider the use of chaperones for some consultations and not solely for the purpose of intimate examinations or procedures.

The [Medical Protection Society \(MPS\)](#) defines a chaperone as "an independent person, appropriately trained, whose role is to independently observe the examination/procedure undertaken by the doctor/health professional to assist the appropriate doctor-patient relationship".

Further guidance can be found in the Chaperone Policy.

9.5 Professional challenge

Professional challenge is an encouraging action taken in the best interests of the child, young person or adult at risk. It enables the challenging of decisions or actions by a member of staff if they consider the stated decisions or actions not to be effective enough for those deemed to be at risk.

Should a member of staff disagree with any element of care offered to an at-risk individual, they are encouraged to discuss their concerns with the organisation's safeguarding lead, their nominated deputy or the local authority safeguarding lead

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

who will provide independent guidance. It is envisaged that most professional challenges will be resolved informally and at a local level.

10 Failure to attend an appointment

10.1 Did not attend (DNA)

Whilst it is acknowledged that there are many reasons for a child, young person or adult at risk to miss an appointment, there may be occasions when failure to attend appointments is a cause for concern.

Appropriate actions can be pivotal in safeguarding the child, young person or adult at risk and, where appropriate, can trigger early interventions to reduce risk.

In known cases where safeguarding is a concern, if a child, young person or adult at risk fails to attend an appointment, the Practice will ensure that contact is made with the relatives or carer of the patient to establish the reasons why the patient failed to attend their appointment. The child, young person or adult at risk is then to be offered another appointment based on clinical need.

To ensure those at risk are offered the most appropriate level of support, the clinician with whom the patient failed to attend is to ensure that the organisation's clinical safeguarding lead is informed and that any advice given is acted upon accordingly as detailed at Section 8.7 of this policy.

Record keeping of DNAs is important and the appropriate use of the relevant [SNOMED CT](#) code is required to track any trends. It is advised that rather than coding DNA, coding is used to record Child Was Not Brought or Adult was not brought (if the adult has care and support needs eg. dementia, LD).

Staff must ensure that they understand their individual responsibilities which are given below in Section 12.

10.2 Was not brought (WNB)

Repeatedly failing to attend appointments for some children, young person or adult at risk may be an indicator that there is an increased safeguarding risk. At GP Practices within Shrewsbury PCN, failure to attend in relation to a child or young person will be referred to as "Was not brought" or WNB. This statement clearly reflects the point that children and young people rely on their parents, carers or guardians to bring them for appointments.

Whilst it is acknowledged that many missed appointments are genuine oversights, instances of repeated cancellations, rescheduling of appointments or WNBs all merit cause for concern. See overleaf.

10.3 Actions for a WNB

10.4 Referring a WNB

If a clinician has significant concerns, they are to initiate a child protection referral using the contact numbers detailed below. Any word-of-mouth referral is to be followed up in writing within 24 hours by the referring clinician. Where the clinician believes that harm is imminent, they should call the police immediately.

All staff are to retain accurate records at all times, ensuring that all actions are annotated, outlining any actions taken. Whilst there is no definitive SNOMED code for WNB, several others are available under 'Did Not Attend' for children (see link at 11.1).

A "Was Not Brought" letter template that is to be forwarded to the parent or guardian following a WNB can be found at Annex A.

11.3 CQC safeguarding responsibilities

Information within this section has been adapted from the [CQC Inspector Handbook on Safeguarding](#).

The primary safeguarding responsibilities of the CQC are:

- Ensuring providers have the right systems and processes in place to make sure children and adults are protected from abuse and neglect
- Working with other inspectorates to review how health, education, police and probation services work in partnership to help and protect children, young people and adults from harm
- Holding providers to account and securing improvements by taking enforcement action
- Using intelligent monitoring where information is collected and analysed about services and responding to identified risks to help keep children and adults safe
- Working with local partners to share information about safeguarding

The CQC is not responsible for conducting safeguarding investigations or enquiries as this is for the relevant local authority or the police.

Likewise, the CQC does not routinely attend Safeguarding Adult Boards (SABs) or Local Safeguarding Children's Boards (LSCBs), although it may share information and intelligence to help all safeguarding teams to conduct enquiries.

11.4 Organisations' safeguarding responsibilities

During any inspection, the CQC will expect that all the following fundamental processes are adopted and embedded at Shrewsbury PCN and its individual constituent GP Practices. Failure to meet any of these points may cause unacceptable harm to our patient population.

- Demonstrate the understanding of the definition of both adults and children at risk and the types of abuse they may be subject to

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- Sufficient priority is given to safeguarding and staff take a proactive approach to prevention and early identification
- Take steps to protect vulnerable adults, children and young people where there are known risks and to respond appropriately to any signs or allegations of abuse
- Work effectively with other organisations to implement protection plans and comply with accepted national guidance on staff competencies in line with their role
- There is an active and appropriate engagement in local safeguarding procedures and effective work with other relevant organisations and incidences of abuse or potential abuse are referred to local authority safeguarding teams
- Systems, processes, policies, procedures and training to help to ensure children and adults who use services are safeguarded from the risk of or actual abuse and neglect are put in place and operate effectively
- Any shortcomings found in safeguarding practice in their service to help reduce the risks to people who use the service and to learn and apply learning from any safeguarding incident are remedied
- The CQC is notified of safeguarding incidents in accordance with regulations by completion of a statutory notification at the time the abuse is identified Further information regarding the requirements where informing CQC is needed, coupled with examples can be sought within both adult and child CQC GP Mythbusters
- For FGM considerations, organisations are to consider how staff are supported to fulfil the legislative requirements and how to refer women and girls for the subsequent physical and psychological consequences

Further information can be found within the referenced CQC handbook and regulatory expectations can be sought from the linked [Mythbusters](#).

11.5 Organisation safeguarding lead

The organisation safeguarding lead is responsible for:

- Ensuring that they are fully au fait with the internal, regional and national policies and procedures that underpin safeguarding
- Acting as the focal point within the organisation for staff who may have concerns, addressing the concerns and acting as necessary

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- Reviewing any information regarding safeguarding concerns, investigating matters further if necessary and taking the appropriate action
- Acting as the liaison between the organisation and the local safeguarding teams, facilitating the sharing of information, attending multi-agency meetings and supporting any local safeguarding investigations where requested
- Processing and sharing information within the organisation in the most effective manner
- Continually reviewing the organisation's safeguarding processes and policy, making recommendations for change as necessary
- In conjunction with the deputy safeguarding lead and organisation manager, ensuring compliance with policy and process by means of audit
- Encouraging training for all staff groups
- Ensuring staff are supported appropriately when dealing with any safeguarding matter

Note: The deputy organisation safeguarding lead will assume the above responsibilities in the absence of the organisation safeguarding lead.

11.6 Partners/directors

The partners/directors are responsible for:

- Ensuring safeguarding children, young people and adults at risk is central to clinical governance
- Contractual compliance with clinical governance arrangements for effective safeguarding policies and procedures
- Ensuring that all staff are trained and know how to react to concerns raised and recognise potential indicators for abuse

11.7 Practice manager

The practice manager is responsible for:

- Ensuring that safeguarding responsibilities are clearly defined in the job descriptions of all staff
- Adhering to the pre-employment requirements and ensuring that an effective recruitment process is in place
- Reaffirming the significance of safeguarding to all staff within the organisation

- Amending and keeping the safeguarding children, young people and adults' leaflet (see Annex B) current and also freely available to all staff and patients

11.8 GPs

The [GPs](#) are

- Take prompt action if they think that patient safety, dignity or comfort is being compromised
- Protect and promote the health of patients and the public

In addition, The Practice Lead GP for Safeguarding should be afforded the necessary protected time to effectively contribute to safeguarding meetings, case conferences and external meetings in support of their patients.

The Practice Lead GP for Safeguarding should also contribute appropriately to statutory safeguarding learning events when asked to do so by the Shropshire Safeguarding Community partnership, such as Rapid Reviews, Safeguarding Adult Reviews and Domestic Homicide Reviews, and Multi-Agency Case File Audits <http://www.shropshiresafeguardingcommunitypartnership.co.uk>

11.9 The Lead Nurse, Pharmacist, and Advanced Practitioner.

The organisation's Lead Nurse, Pharmacist and / or Advanced Practitioner is responsible for ensuring compliance with the [\[NMC Code of Conduct/HCP Standards of Conduct/GPhC Standard for Pharmacy Professionals\]](#) and:

- Acting as an advocate for the vulnerable, challenging poor practice and discriminatory attitudes and behaviour relating to their care
- Sharing necessary information with other healthcare professionals and agencies only when the interests of patient safety and public protection override the need for confidentiality
- Sharing information to identify and reduce risk
- Raising concerns immediately if they believe a person is vulnerable or at risk and needs extra support and protection

11.10 All staff

All staff have a responsibility to:

- Know how to act should they recognise potential indicators of abuse or neglect
- Understand the organisation's and local safeguarding policies and procedures

Responsible Person: Safeguarding Lead and Practice Manager in conjunction with PCN Compliance Manager

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- Partake in meetings and case conferences when requested regarding safeguarding matters
- Attend and/or complete regular training commensurate with their role in accordance with their individual terms of reference and practice policy

11.11 Audit

To ensure compliance with this policy and the processes contained within it, the organisation's safeguarding lead, deputy safeguarding lead and the practice manager will ensure that regular audits are undertaken.

A toolkit of audit can be found at [Annex C](#).

12 Domestic abuse

12.1 Domestic Abuse Act 2021

The prevention of domestic abuse and the protection of all victims lies at the heart of the Domestic Abuse Act 2021 ('the 2021 Act') and its wider programme of work.

As detailed within the Home Office [Domestic Abuse Statutory Guidance](#) document dated July 2022, the measures in the 2021 Act seek to:

- Promote awareness
- Protect and support victims
- Hold perpetrators to account
- Transform the justice response
- Improve performance

Domestic abuse is a high harm, high volume crime that remains largely hidden and anyone can be affected by domestic abuse, regardless of age, disability, sex, sexual orientation, gender identity, gender reassignment, race, religion or belief.

Domestic abuse is defined as follows:

The behaviour of a person ("A") towards another person ("B") is domestic abuse if both A and B are each aged 16 or over and are personally connected to each other and the behaviour is abusive.

It should be noted that it does not matter whether the behaviour consists of a single incident or a course of conduct.

12.2 Recognising domestic abuse

There are a range of abusive behaviours including, but not limited to:

KNOCKIN MEDICAL CENTRE

Knockin, Oswestry, Shropshire. SY10 8HL

Telephone 01691 682203

Fax 01691682700

www.knockinmedicalcentre.nhs.uk. Stw.knockin@nhs.net

- Physical abuse, violent or threatening behaviour
- Sexual abuse
- Controlling or coercive behaviour
- Harassment or stalking
- Economic abuse
- Emotional or psychological abuse
- Verbal abuse
- Technology-facilitated abuse
- Abuse related to faith
- Honour-based abuse

To ensure victims of domestic abuse are well supported, all staff should be aware of the different types of domestic abuse. To help individuals to understand what constitutes as domestic abuse, Chapter 3 of the [Domestic Abuse Act 2021 Statutory Guidance](#) gives examples of the types of abusive behaviour.

12.3 Understanding the impact of domestic abuse

Domestic abuse can cause serious and devastating long and short-term physical, mental, emotional and psychological health impacts for both adults and children. A victim's day to day life can be affected by trying to manage the abuse, leading to increased anxiety and a focus on adapting their behaviour to appease the perpetrator. The psychological impact of domestic abuse can be so severe that it leads to suicide ideation and attempt.

12.4 Multi-agency response to domestic abuse

Responding to domestic abuse often involves many agencies such as local authorities, community-based agencies, children's services, housing, drug and alcohol services, specialist domestic abuse agencies, the police and the criminal justice system.

Working together is pivotal if domestic abuse is to be identified at the earliest opportunity and dealt with effectively, thereby minimising the risk of escalation.

High risk Domestic Abuse cases are discussed at MARAC (Multi-Agency Risk Assessment Conference) and as victim focused. The RCG has produced [MARAC guidance for GPs](#). Other useful guidance is available from the [Department of Health: Responding to Domestic Abuse](#)

Standing Together has produced [In Search of Excellence](#), a guide for facilitating Coordinated Community Response (CCR) partnerships that reiterate the importance of coordination work between frontline service providers.

A Multi-Agency Safeguarding Hub (MASH) is one way of ensuring there is a coordinated approach and response to safeguarding referrals. For further detailed guidance, see Chapter 7 of [the Domestic Abuse Act 2021 Statutory Guidance](#).

Shropshire Telford and Wrekin have developed a [local resource](#) focusing on Domestic Abuse.

13 Summary

Safeguarding is the responsibility of all staff. It is a mechanism to identify and support those children, young people and adults who are at risk from harm and neglect.

Staff must be alert to the potential indicators and fully understand how to act if they suspect abuse or neglect. In doing so, the risk of prolonged harm and neglect will be reduced and the individuals affected will be offered the appropriate level of support and, where applicable, justice will be sought.

Safeguarding children, young people and adults

KNOCKIN MEDICAL CENTRE

What to do

If you are being abused, know of someone who is being abused or think someone may be at risk, it is important that you inform the right people.

We want to reassure you that the people who you talk to will take your concerns seriously and can provide support, guidance and take action to ensure the safety of everyone.

Please speak to a member of staff who will help you get the help you need. All our staff are trained in confidentiality and safeguarding.

We will support you

What is safeguarding?

Safeguarding

This is defined as protecting people's health, wellbeing and human rights, enabling them to live free from harm, abuse, and neglect. It is fundamental to high-quality health and social care.

Adult at risk

This is a person aged 18 or over in need of care and support, or someone already receiving care and support and, as a result, is unable to protect himself/herself from harm, abuse or neglect.

Child or young person

This is any person, male or female, under the age of 18 in need of care and support, or someone already receiving care and support and, as a result, is unable to protect himself/herself from harm, abuse or neglect.

Types of abuse

There are many types of abuse such as:

Type	Examples
Physical	Hitting, biting, shaking, pushing
Sexual	Any sexual contact which is non-consensual
Emotional	Humiliation, intimidation, verbal abuse
Neglect	Ignoring or refusing basic care needs
Self-neglect	Inability to care for oneself
Discriminatory	Values, beliefs or culture results in a misuse of power
Institutional	Misuse of power and lack of respect by professionals, poor practice
Financial	Use of an individual's funds without consent or authorisation
Modern slavery	Includes human trafficking, servitude and forced labour

These are just some examples of how people can be abused or neglected through actions directed towards them that cause harm, endanger them or violate their rights.

Who can abuse?

Abuse can occur anywhere such as at home, in a care setting, hospital, college, school, in public places. It could be from:

- Family members or friends
- Other patients or those at risk
- Young people
- Care workers or volunteers
- Professionals
- Strangers

Do not delay. If you suspect or know that someone is at risk of harm, abuse or neglect, report it immediately!

Safeguarding is the responsibility of everybody
